DETAILED ACTION

Drawings

Drawing objections have been withdrawn.

Claim Objections

The claim objections have been withdrawn.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-15 are rejected under 35 U.S.C. 103 as being unpatentable over United States Patent 4,531,916 Scantlebury et al in view of United States Patent 3,855,638 Pilliar.

With reference to figures 1-4B Scantlebury discloses an implant 10 having a length and a textured rounded tip made from or coated with porous titanium or ceramic. Scantlebury teaches that the implant can be anchored through mechanical screw means 19 and comprises apertures for promoting bone ingrowth.

However, Scantlebury does not disclose the use of a coating comprising growth stimulating substance such as growth factors.

Pilliar teaches the use of a porous surgical prosthesis made from porous titanium that is coated with growth factors in the same field of endeavor for the purpose of encouraging bone ingrowth.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to apply the drug coatings of Pilliar on the implant of Scantlebury in order to encourage faster bone growth.

Response to Arguments

Applicant's arguments with respect to claims 1-15 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
